EXAMINER'S AMENDMENT

Please amend the continuing data in the specification as follows:

IN THE SPECIFICATION:

Page 1, Line-1, INSERT -- This is Divisional Application of Serial No. 10/039,300 filed January 2, 2002, now US Patent 6,818,155.__

Application/Control Number: 10/696,075

Art Unit: 1751

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 23-38 are allowed as amended over the arguments by the applicants and prior art of record that neither teaches nor fairly suggestive of the limitations of the instant claims by the applicants. The newly added claims were fully examined for patentability under 37 CFR 1.104 with a new search. The examiner considered the IDS submitted on 09/02/2004.

The closest prior art by Bae et al (5,545,367) teaches micro-fabrication of packages using magnetically aligned particles from a dispersion of magnetic particles such as ferric oxide and transition-metal/rare-earth compounds in a polymer matrix. Jin et al (US 5,618,189) teaches (Col-5, Lines 6- 48) interconnecting two components by high aspect ratio solders by magnetic aligning of the solder particles coated magnetic particles such as alloys and soft-ferrites dispersed in a matrix, followed by melt-fusion of the particles and removal of the matrix material. Neither Bae et al nor Jin et al teach a system comprising a polymer/magnetic material interconnection, especially comprising magnetic particles with specific particle size, and/or specific complex-titanates and perovskites as magnetic materials meeting the limitations of the instant claims by the applicants.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kallambella Vijayakumar whose telephone number is 571-272-

Application/Control Number: 10/696,075

hrs.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Dr. Yogendra Gupta can be reached on 571-272-1316. The fax phone number for the

organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
